### What's New In?

Information Capture for Infrastructure: Integrate mobile and desktop applications with your CAD drawings to capture the data. Import into any CAD system, and easily view and view your data in PowerBI. (video: 6:14 min.) Portable Installation of CAD: Save installation time by downloading an AutoCAD viewer that runs from a USB flash drive. (video: 4:16 min.) Create More Powerful Markup Pages: Dynamically add to 3D drawings for improved clarity and efficiency. Easily configure multiple text styles, align to grid, and generate multiple views of the page layout from a single location. (video: 5:52 min.) Search and Replace: Find changes and make edits in a single drawing without having to open and close documents. (video: 4:44 min.) Intersection and Union: Combine the AutoCAD features of Intersection and Union to get the most powerful union and intersection tool in the industry. Add real-time geometry intersections to create paths and solid meshes. (video: 5:45 min.) Icons in Standard Views: Create consistent UI elements across your drawings with the ability to use icons, style, and more in the standard views. (video: 2:34 min.) Export Drawing to Repo Format: Export your design drawings to a specific Repo format, saving time and space on your network. Import to the Repo format on any device. (video: 4:23 min.) Invisible Snap Tracking: Track without creating an invisible point. When creating a tracking line, the current tracking line will appear as a red X, the automatic tracking snap will appear as a green circle, and the '+' mark will appear to indicate how many points to add. (video: 3:57 min.) Enhanced Dynamic Floating Plates: Easily create independent floating pages with AutoCAD by drawing within the plot area. Use tabs and other controls to move, resize, or move them. Bring it all together with AutoCAD's flexible floating tools. (video: 3:23 min.) Path Tool Improvements: The Path tool is the most basic of AutoCAD's commands and has become the standard for working with vector paths. Revamp the path tool to work even faster and more efficiently.
