
RAM Concept - RAM STAAD v08.03.00.138

Category:2012 software Category:Computer-aided design software Usage By default, the <quote> tags are printed as a printable representation of the double quoted string, like HTML tags. For example, this page has a <quote> tag at the top that is just for the navigation bar. You can set the value of the \$text.xml to false in which case the <quote> tags won't be printed. For example, in the top of this page, \$text.xml is set to false:]]> , y : 2 , u : 1 } . G i v e
