What's New in the Steffen 039;s Notes?

Steffen's Notes is a simple application that sits on the desktop to give you an extra place to jot down notes. It's not a time keeper, as it doesn't work through time. Instead, you have the option to add a memo, to note down your ideas, to work out calculations, or even to launch files. At its heart, it's a place for ideas. A basic idea of Steffen's Notes is simple and easy to use, with minimal options. Some may find it a bit inconvenient for navigation, as it doesn't include a back button to move to different pages. A lot of options However, Steffen's Notes has many features that help out. It comes with a configurable timer, and even allows you to move notes from the main window to the tray area, for less clutter. Useful tools Steffen's Notes has a few extra features, such as a file launcher to let you quickly access notes, a calculator, and a timer. These are all useful when working on the go, as the app takes care of the settings and can send notes to the tray area. No back button When working on the go, it's a bit hard to move to another note, as Steffen's Notes doesn't have a back button. Instead, you need to scroll through all ten notes to find the one you want to go to. Weaknesses Nothing can be done when there's no back button. You'll need to scroll through the pages to find the one you want to work on. Steffen's Notes is a simple application that sits on the desktop to give you an extra place to jot down notes.
