This program aims to eliminate the repetitive and monotonous keyboard activity associated with using Windows. It features a number of useful macros which can be used by clicking on a particular keyboard shortcut. By applying a number of auto-activating macros you will save a lot of time and effort, especially when it comes to common functions such as Windows Start, minimize, or shutdown. KeyMacro works on any key, not just the Windows key and is easily customizable, so you can change the text used and the order in which they are executed. It also comes with an advanced text editor to help you write your own keyboard shortcuts, or you can select from a set of pre-programmed templates. Super Fast KeyMacro does not hold back on speed, which is one of its biggest strengths. The program is designed to run much faster than any previous version and has a virtually instantaneous response, enabling you to work effortlessly with the included shortcuts. Easy and Simple KeyMacro's user interface is extremely easy to understand and use and requires no previous training, which is always a big plus. It is also very flexible and can be customized to suit your personal requirements. KeyMacro is simply one of the best keyboard shortcuts programs available and is certainly worth a try. A simple, intuitive and well-organized set of keyboard shortcuts KeyMacro is a simple yet effective tool which is easy to use and very convenient. The software lets you create your own keyboard shortcuts, which you can then activate with a single click. So, you can program the program to automate all sorts of common activities, for instance: you can activate the Windows 7 (or 8) start menu, hide the task bar, switch windows, minimize programs, maximize them and more. In addition, the shortcuts you create can be used with other programs as well, which gives you a lot of extra flexibility. Automate almost anything on your computer Creating a keyboard shortcut to run any program is incredibly easy to

do with KeyMacro and is even faster than simply typing the command in the right click menu. Some of the programs you can simply choose from include: Start menu Minimize the window Open a folder Close a folder Run a program Search the computer The advantage of doing this is that you can take a shortcut to any of the above commands and use them whenever you want.
