Dive Brief: Travis Washam, 32, is staring at a lifetime sentence in a Montana jail after being indicted for charges stemming from the 2017 ATV and Snowmobile crash that killed his best friend during the Whitefish Speed Fest. Washam initially pleaded not guilty to two counts of criminal vehicular homicide, as well as two counts of criminal endangerment causing substantial injury and tampering with evidence. "Now that I've come to learn what Travis has got convicted for, I have come to learn that he wasn't involved in the crash. I would never speak poorly about anyone, but know what he's been convicted of, it's pretty

STR takes precedence over DEX when the player starts using the sword. By increasing the STR attribute, you can increase the sword's attack range, and gain the ability to fight and attack as if you were dealing a critical strike. By increasing the DEX attribute, you can open new paths for passing through dungeons and improve your speed for faster attacks. By increasing the VIT attribute, you can increase the attack range of your sword and even gain the ability to use special skills. By increasing the INT attribute, you can increase the amount of experience points that you gain in battle. You can increase the parameters of the five attributes of your sword by equipping 5 parts of a different type of weapon. For example, a weapon equipped with the head increases the STR attribute, which in turn increases your sword's attack range. The various types
