Thanks for your useful review! Nice to hear that you enjoy the game. I am still waiting for the patch fix the training bugs. It is very strange that this game doesn't have a leaderboard, there are scores and stats. I do not understand why it isn't in the center top corner or even in the right corner. I really need a

leaderboard so I can compare what I do and progress as a player. PS: I do not know if the best player is going to be selected but I believe this is a good database and someone deserves it.
