you might use the near future in spanish if you want to tell someone what you expect to happen. no, i don't know when it is going to rain. what do you think i can tell you? creo que no lloverá, de todos modos (i believe it won't rain anyway). a similar meaning to the english verb to leave is the spanish verb dejar (to leave). this expression, when used idiomatically, carries a similar meaning to the english idiom about counting one's chickens before they are hatched, or to take something off a list before they are listed. for more example idioms like these, see this lesson on spanish idioms. however, there are two caveats here. first, you cannot translate an english idiom with the spanish verb dejar. yo no voy a dejar buscar mi fusil is not an idiom, for example; you cannot leave or stop yourself looking for your fusil. second, an english idiom doesn't automatically translate into spanish when it has the verb dejar. yo no voy a dejar dormir may be used idiomatically to mean, for example, i'm not going to stop myself from sleeping. when you conjugate the verb acercarse (to come close or approach), you should use the following forms of acercarse. you may think you only need to conjugate the third person singular acercarse form, acercas, but the second person singular acercarse and the third person plural acercan forms are required as well. there are three forms of acercarse; the third person singular acercarse acercas, the third person plural acercan, and the second person singular acercarse. you can conjugate all three forms of acercarse in the following way:

We've learned how to give amor in the form of a verb in Spanish, but it is more common to express affection with an adjective. This is the case for this Spanish language definition (as well as for many others) from our Spanish-English dictionary: The Spanish word for love is el amor. In Spanish, the word for to fall in love is entrar enamoraciones. If you have a common saying for meeting someone for the first time, it is "entrar enamoraciones." As we have learned, "entrar enamoraciones" means two people are in love, and this expression, "entrar enamoraciones," is used to say "falling in love." In Spanish, expressing oneself with some degree of detail can be described as pegarse la mano ("to get into a situation"). In English, the idiom involves such things as "to show or prove oneself" or "to draw on one's skills and experience" (a person who has "got his fingers burned"). In this example, the phrase se pega la mano suggests that the speaker has to confirm the facts the listener has listed. Literally, it means "to put the hand on his own mouth." This Spanish-English Vocabulary of Medical Terminology is designed to help members of the health care community understand the Spanish language commonly used in the United States. This is a language that is spoken, taught, and written in a growing number of Latin American countries. With the assistance of Spanish-speaking nurses, doctors, and hospital staff, this list of Spanish terms will become an essential tool for translating the words, terms, and expressions of medicine into and out of Spanish. 5ec8ef588b
