
FolderHighlight 2.6.6 TOP

FolderHighlight allows you to customize the look of the icons of the folders in your PC, both in the Windows Explorer and on the desktop, with ease. To do so, you just need to run this tool, give it the name of the folder you want to modify and select the color you want it to appear in. With FolderHighlight 2.7.0 you can change the color of your windows folders and also provide additional information. With FolderHighlight 2.6.6 you can preview all the information you have defined in FolderHighlight 2.7.0. It also allows you to assign a color to each type of information, etc. FolderHighlight has a lot of options and allows you to quickly customize your folders. For example, you can assign a specific color to folders, extract additional information, scroll to the next item, etc. with just a single right-click. In addition, you can also add folders to an existing selection, remove the search results, configure the auto-highlighting of results and change the Explorer view. Thanks to its many options, FolderHighlight is perfect for both beginners and power users. It works without any installation and in minutes you will be able to apply the changes you want to your Windows folder. Some of the options are quite simple, others more complex. In the end, FolderHighlight makes it possible to customize your folders with the minimum of effort. FolderHighlight (or FDM Lib) is able to remove from any folder any information (without modifying the folder itself). In addition, you can also add a folder to a list of selected folders or move any folder to the selection list. The folder hierarchy is preserved and you can easily navigate your folders just by moving the mouse over them.
