Hangover 3 720p Hdtv x264 torrent or any otherQ: How to retrieve button background color from custom keyboard plugin I am customising a keyboard. I changed the view to show a custom layout. I also edited the background color of the button in the custom layout. Now I would like to retrieve that color and save it for all the buttons. I can change the background color for each button via input.setBgColor(R.color.black); But how do I retrieve the color from the custom view? I have been looking around for a solution but I have not been able to find anything. A: I was able to retrieve the view background color with the following code. InputView inputView = (InputView) view; TypedValue v = new TypedValue(); inputView.getContext().getTheme().resolveAttribute(R.attr.colorHighlightedBlack, v, true); inputView.setBackgroundColor(v.data); I also saw this but I don't think that it works with custom views because I couldn't set the color from a custom layout. If you think this code could help someone else you can upvote it. Distribution, relative abundance, and seasonal occurrence of rhabdoviruses in European great tits (Parus major) from Bavaria, Germany. The composition of rhabdoviruses in the spleen and liver of great tits (Parus major) in Bavaria, Germany, was determined between April 2007 and April 2008. Anti-nucleocapsid (N) and anti-fusion (F) antibodies were used to identify members of the Rhabdoviridae in tissue homogenates and immunohistochemical staining of tissues. In Europe, 12 members of the Rhabdoviridae have been identified in great tits to date, three of which are field-viruses. The newly identified viruses, codependent on nucleopolyhedrovirus (Bunyaviridae) and dsRNA genome (Birnaviridae), were included for the first time in the present study. Five rhabdoviruses were identified in the great tits. The viraemia was more frequent in the autumn/winter months, with a peak in February and March. The higher prevalence of the viruses in the spring/summer is probably due
